

MySQL provides the Windows MySQL installer for all servers, applications and drivers associated with MySQL. Once installed, the MySQL installer can help you keep your software up to date as well as identify missing components with the SQL notifier. The installer can be downloaded from: <https://dev.mysql.com/downloads/installer/>

## MySQL Community Downloads

MySQL Community Server

The screenshot shows the MySQL Community Downloads page for MySQL Community Server 8.0.20. At the top, there are three tabs: "General Availability (GA) Releases" (selected), "Archives", and an information icon. Below the tabs, the title "MySQL Community Server 8.0.20" is displayed. A "Select Operating System:" dropdown menu is set to "Microsoft Windows". To the right of the dropdown is a button labeled "Looking for previous GA versions?". Below this, the "Recommended Download:" section features a large banner for "MySQL Installer for Windows". The banner includes the text "All MySQL Products. For All Windows Platforms. In One Package." and a small image of the MySQL logo. Below the banner, it says "Starting with MySQL 5.6 the MySQL Installer package replaces the standalone MSI packages." At the bottom of the banner, there is a link for "Windows (x86, 32 & 64-bit), MySQL Installer MSI" and a "Go to Download Page >" button.

**Recommended Download:**

# MySQL Installer for Windows

**All MySQL Products. For All Windows Platforms.  
In One Package.**

Starting with MySQL 5.6 the MySQL Installer package replaces the standalone MSI packages.
